Profile

A Passionate UX/UI Designer with 6 months of experience and 5 months of backend development with Django, skilled in user-centered design and balancing user needs with business goals.

Work Experience

Insightly - UX Designer (Part-time)

July 2024 - Present - Cairo, Egypt

- Researched and suggested a feature to collect reviews from platforms like Google Play and the App Store, expected to enhance platform functionality and market differentiation by 30%, significantly increasing user satisfaction and engagement upon launch.
- Designed detailed user stories and flows while balancing user needs with business objectives, contributing to a streamlined, user-centric, and goal-aligned design process.

Insightly - UX Designer Intern (Full-time)

April 2024 - July 2024 - Cairo, Egypt

- Handled tasks that significantly enhanced my skills, aligning my capabilities with current market demands and trends.

Education

September 2019 - July 2023 - Very Good

Bachelor's degree in Computer and Information Science from Mansoura University
